**2.24 Schools and Libraries Discount Program**

**2.24.1 General**

The Schools and Libraries Discount Program permits eligible schools (public and private, grades Kindergarten through 12) and libraries to purchase the Company services offered in this tariff at a discounted rate, in accordance with the Rules adopted by the Federal Communications Commission (FCC) in its Universal Service Order 97-157, issued May 8, 1997 and the New York State Public Service Commission in its Opinion and Order 97-11 Adopting Discounts for Services for Schools and Libraries, issued June 25, 1997. The Rules are codified at 47 Code of Federal Regulation (C.F.R.) 54.500 et. seq.

As indicated in the Rules, the discounts will be between 20 and 90 percent of the pre-discount price, which is the price of services to schools and libraries prior to application of a discount. The level of discount will be based on an eligible school or library's level of economic disadvantage and by its location in either an urban or rural area. A school's level of economic disadvantage will be determined by the percentage of its students eligible for participation in the national school lunch program, and a library's level of economic disadvantage will be calculated on the basis of school lunch eligibility in the public school district in which the library is located. A non-public school may use either eligibility for the national school lunch program or other federally approved alternative measures to determine its level of economic disadvantage. To be eligible for the discount, schools and libraries will be required to comply with the terms and conditions set forth in the Rules. Discounts are available only to the extent that they are funded by the federal universal service fund. Schools and libraries may aggregate demand with other eligible entities to create a consortium.

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)**

**2.26 Emergency/Crisis/Disaster Restoration And Provisioning Telecommunications Service Priority**

**2.26.1 General**

- (A) The Telecommunications Service Priority (TSP) Program is a federal program used to identify and prioritize telecommunications services that support national security or emergency preparedness (NS/EP) missions.

NS/EP services are defined as those telecommunications services which are used to maintain a state of readiness or respond to and manage any event or crisis which causes or could cause injury or harm to the population, damage or loss to property, or degrades or threatens the NS/EP posture of the United States.

TSP restoration and/or provisioning shall be provided in accordance with Part 64, Appendix A of the Federal Communications Commission's Rules and Regulations (47 C.F.R.), and the "Service Vendor Handbook For The Telecommunications Service Priority (TSP) Program" and the "Service User Manual for the Telecommunications Service Priority (TSP) System" (NCS Manual 3-1-1) (Service User Manual) issued and updated as necessary by the Office of Priority Telecommunications (OPT) of the National Communications System. Any changes to or reissuance of these regulations or manuals supersede tariff language contained herein.

---

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)**

**2.26 Emergency/Crisis/Disaster Restoration And Provisioning Telecommunications Service Priority, (Cont'd.)**

**2.26.1 General, (cont'd.)**

- (B) The TSP program has two components, restoration and provisioning.
- (1) A restoration priority is applied to new or existing telecommunications services to ensure restoration before any other services during a service outage. TSP restoration priorities must be requested and assigned before a service outage occurs.
  - (2) A provisioning priority is obtained to facilitate priority installation of new telecommunications services during a service outage. Provisioning on a priority basis becomes necessary when an end-user has an urgent requirement for a new NS/EP service that must be installed immediately or by a specific due date that can be met only by a shorter than standard or expedited Company provisioning time frame. As a matter of general practice, existing TSP services will be restored before provisioning new TSP services.

---

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)**

**2.26 Emergency/Crisis/Disaster Restoration And Provisioning Telecommunications Service Priority, (Cont'd.)**

**2.26.2 TSP Request Process**

**(A) Restoration**

To request a TSP restoration priority assignment, a prospective TSP user must:

- (1)** Determine that the user's telecommunications service supports an NS/EP function under one of the following four TSP categories.

National Security Leadership  
National Security Posture and U.S. Population Attack Warning  
Public Health, Safety, and Maintenance of Law and Order  
Public Welfare and Maintenance of National Economic Posture

- (2)** Identify the priority level to be requested for the telecommunications service. The priority level is determined by the end-user's TSP category and service profile. The service profile defines the user's level of support to the portion of the telecommunications service that the user owns and operates, such as customer premises equipment or wiring. The five levels of priority and seven element groups that define the service profile are contained in the Service User Manual.

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)**

**2.26 Emergency/Crisis/Disaster Restoration And Provisioning Telecommunications Service Priority, (Cont'd.)**

**2.26.2 TSP Request Process, (cont'd.)**

**(A) Restoration, (continued)**

- (3)** Complete the TSP Request for Service Users form (SF 315) available on the National Communications System (NCS) website (<http://tsp.ncs.gov/>).
- (4)** For non-federal users, have their TSP requests approved by a federal agency sponsor. Non-federal users should contact the OPT, at the NCS website (<http://tsp.ncs.gov/>), for information on identifying a sponsor for TSP requests.
- (5)** Submit the SF 315 to the OPT.
- (6)** Upon receipt of the TSP Authorization Code from the OPT, notify the Company, and include the TSP Authorization Code in any service order to the Company requesting restoration of NS/EP services.

---

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)**

**2.26 Emergency/Crisis/Disaster Restoration And Provisioning Telecommunications Service Priority, (Cont'd.)**

**2.26.2 TSP Request Process, (Cont'd.)**

**(B) Provisioning**

To request a TSP provisioning priority assignment, a prospective TSP user must follow the same steps listed in 2.26.2(A). above for restoration priority assignment except for the following differences. The user should:

Certify that its telecommunications service is an Emergency service. Emergency services are those that support one of the NS/EP functions listed in 2.26.2(A)(1) above and are so critical that they must be provisioned at the earliest possible time, without regard to cost to the user.

Verify that the Company cannot meet the service due date without a TSP assignment.

Obtain approval from the end-user's invocation official to request a provisioning priority. Invocation officials are designated individuals with the authority to request TSP provisioning for a telecommunications service, and include the head or director of a federal agency, commander of a unified/specified military command, chief of a military service, commander of a major military command, or state governor.

---

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)**

**2.26 Emergency/Crisis/Disaster Restoration And Provisioning Telecommunications Service Priority, (Cont'd.)**

**2.26.3 Responsibilities of the End-User**

End-users or entities acting on their behalf must perform the following:

- (A) Identify telecommunications services requiring priority.
- (B) Request, justify, and revalidate all priority level assignments. Revalidation must be completed every 2 years, and must be done before expiration of the end-user's TSP Authorization Code(s).
- (C) Accept TSP services by the service due dates.
- (D) Have Customer Premises Equipment (CPE) and Customer Premises Wiring (CPW) available by the requested service due date and ensure (through contractual means or otherwise) priority treatment for CPE and CPW necessary for end-to-end service continuity.
- (E) Pay the Company any authorized costs associated with priority services.
- (F) Report to the Company any failed or unusable services with priority levels.
- (G) Designate a 24-hour point of contact for each TSP request and apprise the OPT.
- (H) Cooperate with the OPT during reconciliation (comparison of NS/EP service information and resolution of any identified discrepancies) and revalidation.

---

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)**

**2.26 Emergency/Crisis/Disaster Restoration And Provisioning Telecommunications Service Priority, (Cont'd.)**

**2.26.4 Responsibilities of the Company**

The Company will perform the following:

- (A) Provide TSP service only after receipt of a TSP authorization code.
- (B) Revoke TSP services at the direction of the end-user or OPT.
- (C) Ensure that TSP Program priorities supersede any other telecommunications priority that may be provided (other than control services and order wires).
- (D) Designate a 24-hour point of contact to receive reports of TSP service outages from TSP service users.
- (E) Designate a 24-hour point of contact to coordinate TSP processes with the OPT.
- (F) Confirm completion of TSP service order activity to the OPT.
- (G) Participate in reconciliation of TSP information at the request of the OPT.
- (H) Ensure that all subcontractors complete reconciliation of TSP information with the service vendor.

---

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)**

**2.26 Emergency/Crisis/Disaster Restoration And Provisioning Telecommunications Service Priority, (Cont'd.)**

**2.26.4 Responsibilities of the Company, (cont'd.)**

- (I) Ensure that other carriers supplying underlying facilities are provided information necessary to implement priority treatment of facilities that support NS/EP services.
- (J) Assist in ensuring that priority level assignments of NS/EP services are accurately identified "end-to-end" by providing to subcontractors and interconnecting carriers the restoration priority level assigned to a service.
- (K) Disclose content of the NS/EP TSP database only as may be required by law.
- (L) Comply with regulations and procedures supplemental to and consistent with guidelines issued by the OPT.

**2.26.5 Preemption**

When spare facilities are not available, it may be necessary for the Company to preempt the facilities required to provision or restore a TSP service. When preemption is necessary, non-TSP services may be preempted based on the Company's best judgment. If no suitable spare or non-TSP services are available, the Company may preempt an existing TSP service to restore a TSP service with a higher restoration priority assignment. When preemption is necessary, prior consent of the service user whose service will be preempted is not required; however, the Company will make every reasonable effort to notify the preempted customer of the action to be taken.

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)**

**2.27 Routing of (0 Minus) and Emergency Calls**

Subscribers utilizing Customer Owned or Leased Currency Controlled Telephones ("COCOTs") may program their telephones to access WiMacTel's network on a (0 minus) basis provided that they comply with applicable Commission rules and regulations and WiMacTel's verification and testing procedures as set forth in this tariff and its Certificate of Public Convenience and Necessity.

Prior to connecting any COCOT to WiMacTel's services or relocating or changing the telephone number of any COCOT previously connected, the Subscriber must submit a completed database form containing the exact street address and telephone number of the COCOT and the telephone numbers of the emergency services serving that location.

Subscribers must test each COCOT connected to WiMacTel's services prior to the initiation of (0 minus) services and at least once per quarter thereafter. In addition, each COCOT must be tested after any relocation of the COCOT and after any change in the telephone number of the COCOT. Testing shall be accomplished as set forth below.

A representative of the Subscriber must visit the site of each of the Subscriber's COCOTs and place a (0 minus) test call to WiMacTel's operator. Using a pre-arranged security password, the representative will verify that they are a Subscriber of WiMacTel and tell the operator the telephone number, location, street address, city, state, and emergency numbers for the COCOT being tested. The operator will verify that this matches the information displayed on the operator screen.

If there are no discrepancies, the operator will record the date, time and operator number associated with the test and save the record. If there are any discrepancies, the operator will make any corrections on the screen and save the record. WiMacTel will retrieve all test records and verify any corrections with the Subscriber.

---

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)**

**2.27 Routing of (0 Minus) and Emergency Calls, (Cont'd.)**

Subscribers must program each of their COCOTs to automatically route (0 minus) calls to the local exchange company in the event that access to WiMacTel is not available.

WiMacTel will produce and audit monthly automated reports listing the most recent test dates for each COCOT connected to WiMacTel's services. Each Subscriber will be provided with this report as it relates to his COCOTs and reminded that all telephones must be tested quarterly to be in compliance. In addition, WiMacTel will produce a report containing COCOT locations that have not been tested within the last three months. Each affected Subscriber will be provided with this report and will be advised that this telephone is not in compliance, and must be tested within one week to avoid commission interruption.

WiMacTel will withhold commissions for each COCOT not tested within the week. Commission payments will be resumed only upon submission of a new database form and completion of the verification procedures set forth herein.

On a quarterly basis, WiMacTel will also verify all emergency numbers contained in its database by telephoning each Emergency Service Provider and verifying the nature of the services it handles and that it is the correct provider for the COCOT locations contained in WiMacTel's database. WiMacTel will record any changes and replace them in its database.

---

**SECTION 3 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)**

**3.2 Determination of Call Duration and Timing of Calls**

- 3.2.1** For Direct Dialed and Operator Station Calls, chargeable time begins when the connection is established between the calling station and the desired telephone, attendant board, or private branch exchange console. For Person-to-Person calls chargeable time begins when the designated party comes on the line, or when the caller agrees to speak with a substitute party.
- 3.2.2** Chargeable time ends when the connection is terminated.
- 3.2.3** Chargeable time does not include the time lost because of known faults or defects in the service.
- 3.2.4** The initial and additional timing periods for billing purposes vary by product and are specified in Section 3 of this tariff.
- 3.2.5** The Company will not bill for unanswered calls. When a Customer indicates that he/she was billed for an incomplete call, WiMacTel will reasonably issue credit for the call.

**SECTION 3 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)**

**3.3 Time of Day Rate Periods**

For time of day sensitive services, the appropriate rates apply for day, evening and night/weekend calls based on the following chart:

	MON	TUES	WED	THU R	FRI	SAT	SUN
8:00 AM TO 4:59 PM	DAYTIME RATE PERIOD OR PEAK RATE PERIOD						
5:00 PM TO 10:59 PM	EVENING RATE PERIOD OR OFF PEAK RATE PERIOD					EVE	
11:00 PM TO 7:59 AM	NIGHT/WEEKEND RATE PERIOD OR OFF PEAK RATE PERIOD						

**3.3.1** Day, Evening, and Night/Weekend times are determine by the local time of the location of the calling service point. Chargeable time for a rate period (e.g. 8AM-5PM) begins with the first stated hour (8AM) and continues to, but does not include, the second stated hour (5PM). The rate applicable at the start of chargeable time at the calling station applies to the call during the duration of the call that is applicable to that time period. If a call begins in one discount period and ends in another, the initial period discount applied is the discount in effect at the time the call is established. The charge for each additional minute of usage is the additional minute billing rate of the rate period in which the beginning of each minute occurs.

---

**SECTION 3 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)**

**3.3 Time of Day Rate Periods, (Cont'd.)**

- 3.3.2** The time when connection is established is determined in accordance with the time - standard or daylight savings - legally or commonly in use at the location of the calling service point and determines whether Day, Evening, Night or Weekend rates apply. This rule applies whether the message is sent paid or collect and is applicable to interLATA direct dialed and operator assisted calls.

---

**SECTION 3 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)**

**3.4 Calculation of Distance**

For services which are distance sensitive, usage charges are based on the airline distance between the serving wire center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by Telcordia, in the following manner:

Step 1: Obtain the "V" and "H" coordinates for the serving wire center of the Customer's switch and the destination point.

Step 2: Obtain the difference between the "V" coordinates of each of the serving wire centers. Obtain the difference between the "H" coordinates.

Step 3: Square the differences obtained in Step 2.

Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers of the call.

**Formula =**

$$\sqrt{\frac{|V_1 - V_2|^2 + |H_1 - H_2|^2}{10}}$$

---

**SECTION 3 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)**

**3.5 Operator Services**

**3.5.1 Determination of Charges**

- distance between applicable rate centers
- time of day and day of week
- duration of call
- class of call

Rates are charged in full minute increments. The minimum charge for each call is one full minute; each additional minute is charged in whole minute increments.

**3.5.2 Classes of Services**

---

**SECTION 3 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)**

**3.5 Operator Services, (Cont'd.)**

The usage charge element is specified as a rate per minute that applies to each minute of call duration, with a minimum charge for each call of one minute, and fractional minutes of use thereafter counted as one full minute or a portion thereof (incremental billing).

**3.5.4 Public Payphone Surcharge**
